Using the Remote Browser for Migration Testing

Step 1

Start by going to https://guest-rdp.media3.net and selecting the 'Cornell University Test_Browser'.

Step 2

When prompted, enter the Guest username and password combination that was supplied to you in the email.

After successfully logging in, a new browser window will be opened in your existing browser window.

Step 3

Enter the MigrationID provided in the original email message when prompted and press submit. Follow the instructions on screen to test your migrated sites.
